PRESS RELEASE – CORONAVIRUS UPDATE

Due to recommendations by the CDC, all Town owned or leased properties may only be used **for food sales or distributions in a pack and go nature and emergency services**. This includes but isn't limited to the Hospital Property, Matheson Park, and Town Park. No yard sales, flea markets, races, festivals, mass gatherings, ball practices or games, concerts, etc. until further notice. At this time, the playground at Matheson Park is still open, but all park shelters are closed for use. We will not be taking any reservations for shelter use at this time. Reservations for park shelters and mass gathering events already made will be evaluated on a week to week basis based on the CDC recommendations at that time.

Touching on a subject mentioned in the March 13, 2020 press release, we ask that our water & sewer customers utilize other payment methods besides coming in to make payments at this time. Please use our online services, postal service, or our drop box to make payments. Our drop box is located at the end of our parking lot, closest to BB&T Bank. Please use a check or money order when mailing in your payment or placing it in the drop box. We do not recommend using cash for either of these payment methods! You can access our online payment services through our website www.taylorsvillenc.com. Also, on our website, under the button for online payments, you will find instructions on how to use our online payment services.

Until further notice, brush and limb pickup will be on Mondays only and landfill items will be picked up Tuesdays, Wednesdays, and Thursdays. There will be no pickup on Fridays! Trash and recycling pickup through Republic Services will remain on a normal schedule.

We apologize for any inconvenience this may cause, but the public's health is our top priority. Hopefully the virus threat passes soon and we will all be able to go back to the normal life with services we have grown accustomed to having. In the meantime, we must rally together as a community to take the precautionary measures to ensure everyone's wellbeing. Thank you for your understanding!
