### Open Forum:

Carol Rogers came before the Town Board requesting that the speed bumps be placed back on 1<sup>st</sup> Ave. SW. She states that when they were placed there that traffic was much slower. They are portable speed bumps and are moved periodically throughout town as a speed deterrent. She stated that the dangerousness of crossing to the Library and the speeding along 1<sup>st</sup> Ave. SW is a real problem along with excessive noise from loud mufflers on vehicles. She states that people use it as a cut through and excessive speeding and noise occurs at all hours which disturbs the neighborhood. She formally requested to get those speed bumps placed there permanently or a permanent cross walk to be installed which would deter speeding. Mayor Pro Tem Poole assured her that the Council will look into the matter further to reach an acceptable solution.

Police Dept. Report: Chief Doug Bowman

Chief Bowman mentioned that school started back this week. There was a shooting behind KFC resulting in 1 person being injured and the area being placed on lockdown. A suspect has been identified. He thanked all the additional help from the NC Highway Patrol, Alexander County Sheriff's Department and Iredell County Sheriff's Department in helping with the crime. A civilian called in who was inside KFC when the shooting occurred and complimented the professionalism of the officers who responded to the scene and assisted the injured person. He is aware of the speeding on 1<sup>st</sup> Ave. SW near the Library. He has a pedestrian sign ordered and is waiting on the completion of the painted designation for the crosswalk in front of the Library.

Utility Manager Report: Aaron Wike was not in attendance

Town Manager Report: David Odom

Manager Odom noted that the Tree & Park Committee was in attendance. He noted that he had asked at last month's meeting that the Tree & Park Committee look at the crepe myrtle trees along Main Street, S. Center Street, 2<sup>nd</sup> Street & the mediums & make recommendations on trimming or removing them and report back to the Town Board. There are 9 trees in the mediums along Main Ave. Dr. that are dead & will need to be removed. The question is what to put back in place there. Blaze maples can be placed there at a cost of \$250.00 each not including planting or another type tree can be chosen. It is recommended that the trees be removed & replanted prior to the Apple Festival. It was suggested by Councilwoman Brown that local growers such as JD Sink be contacted to see what they have available and to keep the purchase local is possible. Another issue is the rock at Matheson Park which was damaged and cannot be repaired nor replaced since that particular rock is obsolete. The insurance will reimburse the

Town over \$31,000.00 in replacement costs. Included in the packet is information on possibilities for replacements. It was suggested by Councilwoman Brown that a work session be held to discuss the options.

With no other business, the meeting was unanimously adjourned.
